

## Our photo day system is designed for the future, with today's parent in mind.

We're a sports photographic company that allows families to **view their team and portrait photos before they purchase**. There's no need for pre-payment or pressure to purchase before photo day and **no charge to your club**.

We also take **multiple poses** of your athletes, so families now have the ability to **view and pick which photos they would like to buy**.

### Less work for you

Our post-pay model means hardly any administration work for you. No messy forms to hand out or envelopes stuffed with cash – all our orders are made online after photo day via our secure online store.

### Fast delivery times

Depending on the size of the club, photos are available to view online within 14 business days of the last shoot date. Once your club's photos are online, orders are printed and packed 3 weeks from that date. Families also have the option to have prints posted directly home – mailed next business day.

### Enterprise level security

We take data privacy seriously with enterprise level security for your club members. Easily upload sensitive member data via our encrypted website in one click.

### Amazing photography

Depending on your facilities and club's location you have the option for us to work across multiple training afternoons with multiple photo stations, so there's no interruption to game days. And to top it all off, we take beautiful pictures of your athletes printed on archival FujiFilm papers that your club members will love. I've attached some recent sports club examples for you.

**Paul Barkley**  
Director

### > Browse before you buy

Preview all images online before purchasing.

### > Multiple options

Choose from different poses and pick and mix photos to create a discounted bundle.

### > Reduced admin

Contactless ordering means less admin for your club. Let us run a successful photo day for you.

### > Fast turnarounds

Parents view images quickly and we dispatch next business day.

### > Admin portal

Access to your club's photos for archival purposes.
